

DINOSAUR EXCAVATION ACTIVITY

Need:

- Sensory bin or container to create the excavation site
- 4 cups of sand
- 2 cups of cornstarch
- Water - Just enough for the mixture to stick together

Method:

- Place sand and cornstarch in container and mix.
- Add enough water for the mixture to stick together.
- Bury some toys (dinosaur toy, pokemon, fairies) in the mixture.
- Leave to air dry.
- Once hard lets the kids hunt for the buried toys.
